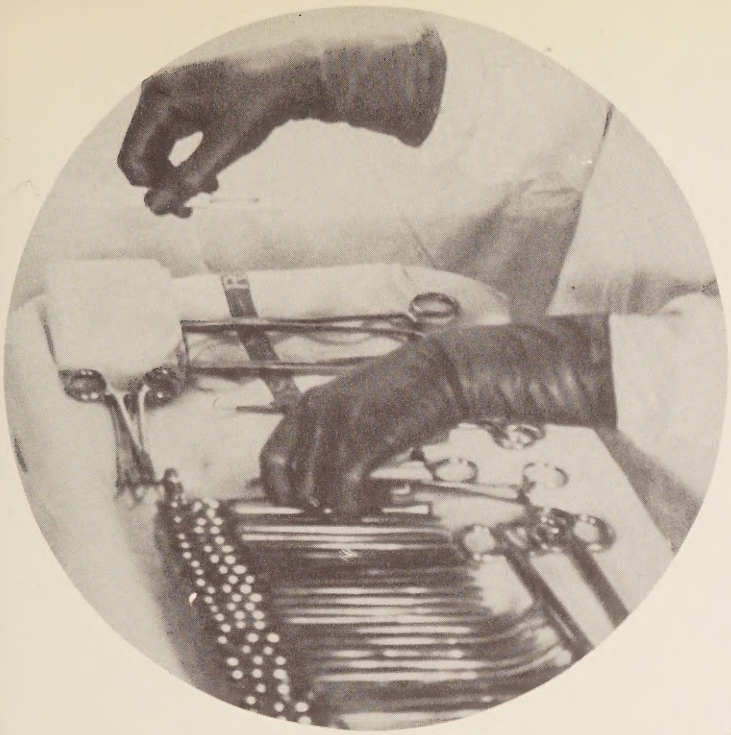
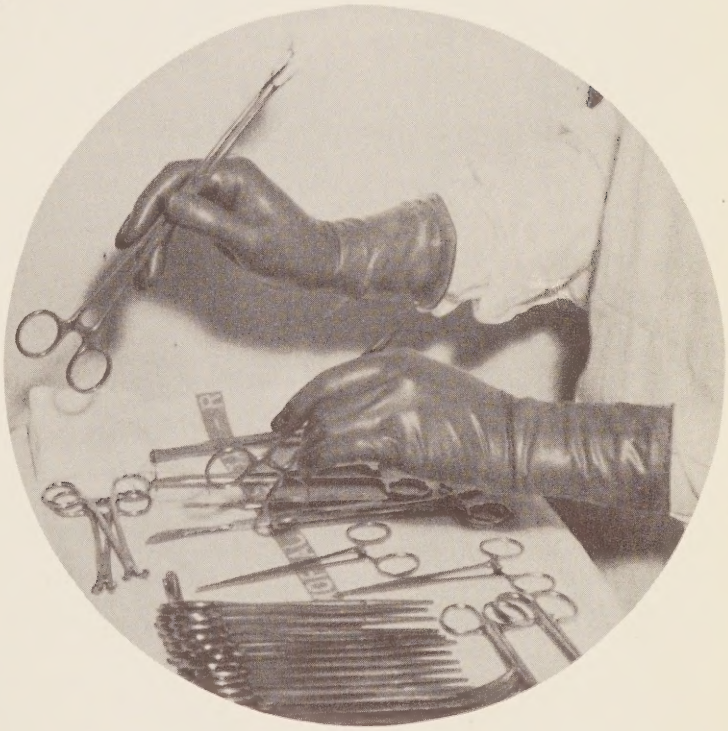
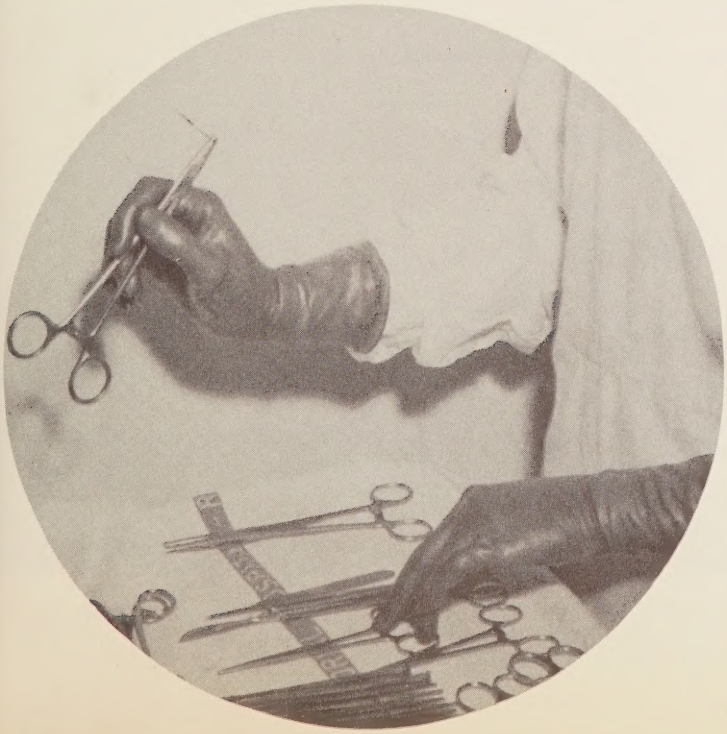
DEDICATION



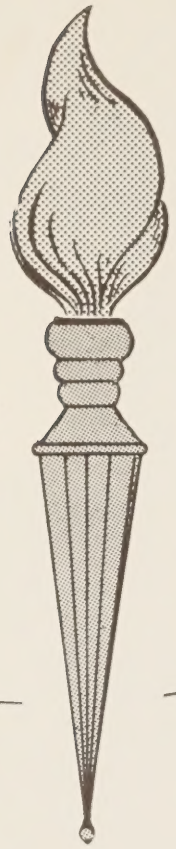


To the hands which work so faithfully in this hospital to comfort and aid those who are ill ,



and help bring joy and health into their lives, we fondly dedicate this yearbook—Our 1949 La Luz.

Foreword



FOREWORD

"Remember the day—?" That's the phrase heard over and over, day after day. We want to remember many things and events, but most of all our days in training.

We all have never-to-be-forgotten memories stored away in our minds, and we hope that this yearbook, LA LUZ, will help to recall some of our favorite memories in years to come.

CLASS HISTORIES

On June 1, 1946, Beard, Boone, Culp, Gossett, Grau, Harvey, Herrington, Johnson, McCasland, Michiels, Morrow, Rasco, Richardson, Squyres, and Williams were admitted to the Lubbock Memorial Hospital School of Nursing.

We were all a little shaky at first, but soon were accustomed to our new surroundings.

During our first three months, Beard, McCasland, and Michiels left us.

On Feb. 18, 1947 the remaining 13 got capped in a ceremony at the First Methodist Church. That was one of the big events in our training.

June 1947, we received our Junior stripes. We started special services, surgery, O. B., diet kitchen, and three months of Pedi. in Galveston.

Johnson left in Sept. of 47 and Culp left the following April, leaving only 11 in our class.

June, 1948 we received our senior stripes and class pins. We really felt our importance then.

The following year held a lot in store for us. May 19, the most important dance of all, our graduation dance. On May 22 was Baccalaureate and the 24th was graduation. Our last day of training was May 31st.

We will always be grateful to the instructors and supervisors, who with their never tiring efforts, brought us through those wonderful three years.

Seniors II

Sept. 9, 1946, twelve more girls arrived to start a new and exciting life at L. M. H. Then on Sept. 12, two more arrived, making a grand total of 14. These being Anderson, Collins, Everitt, Holsomback, Knox, Maeker, Moon, Petty, Plunkett, Potts, Prichard, Sheppard, Willis, and White.

At first it was hard to make acquaintances but on the 26th we had our first party, which really started things with a bang.

As the months passed we began to understand better the Profession we had chosen. But amidst all the studies and work, we managed to have an anniversary party every month.

Finally came the first big step in our training. One Jan. 22, 1947, we went on the floor for the first time for 6 hours. Gosh, it was a thrill!

The next step in line for us was the Capping, June 10, 1947. But by this time our class had dwindled to 12, these two leaving us to start on their MRS. degree.

Sept. 9, 1947, one year of our three was finished and now one more of our 14 had gone, leaving only 11. We were Juniors which really seemed like an achievement. But then duties in surgery, Obstetrics, dietetics, and other special services were about to begin.

Fall again and we receiving our senior stripes and pins. Three more leaving, two to start homes, and one to transfer, left only 8 in our class. Four of us were sent to Galveston on Oct. 4 for Pedi. We returned on Jan. 2, and the other four left to stay six months.

Spring with its brightness and gaiety arrived, with it coming the graduation dance on May 19, and on May 24, we reached the Climax of our three years—graduation!

Perhaps we as Pre-clinicals brought in a little knowledge, but as Graduating Seniors, we are taking with us a greater knowledge in the practice and theory of Nursing, also in turning unpleasantries, discouragements, and criticisms into something worthwhile for our fellowman. But for all of this we wish to thank you. L. M. H., you've been grand!

CLASS PROPHECY

Homecoming of 1959! The date we have all looked forward to—for on this date the Graduating Class of '49 has pledged themselves to return to L.M.H.One by one they are assembled in the dining room for the annual breakfast, and soon familiar shouts can be heard across the room and the little phrase "Remember when"—But soon the chatter turns to the past and arriving in a 1949 Studebaker are Boone, Rasco, and Herrington. They will still be found working on Psycho at John Sealy.

But what's this—only Squyres, with her own little Pediatric dept. and not a bad job either.

May has discarded her jeans and boots for this special occasion, but she is still riding herd on that New Mexico ranch.

Gossett dashes in quite breathless, just taking time off from her supervision of O. B. at the new L. M. H.

Appearing complete with hornrim glasses is Grau—now Educational Director of L.M.H. having at long last completed her degree in Nursing Education.

Just back from the A.N.A. meeting and a visit to John Powers Beauty Salon is Harvey complete with the latest bobbed hair.

Coming in on a "wheel and a prayer" (motorcycle) is Morrow, who is now head of the new hospital at the college.

Breezing in-fresh from South America, are Williams and Richardson—the retired members of the profession. How we all dream of that day.

Everitt is still lavishingly tipping all waiters in an attempt to spend the money won with the Krueger Award.

Enjoying a nice quiet homelife with wonderful husbands and nine children each—are of all people—Holsomback and Maeker.

In walks Knok with her camera—head photographer at Wheats Studio. Incidently the new gray hairs are a result of the trials on the L.M.H. annual for '59.

Petty appears at last to have lost her loves for Ray's, now being happily married to Dorman Throckmorton III.

A cablegram arrived expressing Plunkett's deepest regrets at being unable to attend. She is now a missionary in darkest Africa.

Potts just stopped in for a quick cup of coffee. She's still wearing a diamond and is supervisor of Sta. II.

And now Prichard is present with the big news ot the love of her life-Supervision of the Big Springs Psychopathic Hospital.

It seems that all the Graduates of '49 have been accounted for, so we will see you next Homecoming.
